TEACH AAT WITH OSBORNE BOOKS

Our books and online resources have been completely revised to support you in the delivery of the AAT Q2022 Accounting qualifications.

Tutorials, Workbooks and Wise Guides will provide you and your students with a comprehensive range of user-friendly teaching and study materials that accurately reflect the AAT guidelines and assessments.

Take a look inside to learn more about our resources for tutors and students, including our updated mobile App, which allows students to interact with their AAT eBooks and our online Assessment Builder which enables tutors to create online bespoke testing for students with a performance reporting function.

Osborne Books offers support to tutors and students throughout the AAT course providing high quality material written by experienced tutors and authors.

WHAT'S NEW FOR Q2022?

- Updated to cover the new syllabus and assessment styles
- Prepared by experts, to help you become an expert
- Less words, more action
- The AAT qualification ensures that students and members are well-prepared with the latest developments in the world of accounting
- Level 2 and 3 content updated to include international accounting standards
- Lots of changes! For example, no more process costing
- The specifications have all been updated to improve their relevance to employers

WHAT AUTHORS ARE SAYING...

LEVEL 2

Principles of Costing - the introduction of spreadsheet skills at the very start of the AAT journey, providing learners with crucial skills and a fantastic foundation in preparation for future studies and also use in the workplace.

LEVEL 3

Business Awareness is a new unit at Level 3 with lots of new and wide ranging content.

Tax Processes for Businesses has changed substantially so that as well as indirect tax, it now includes a learning outcome on payroll.

LEVEL 4

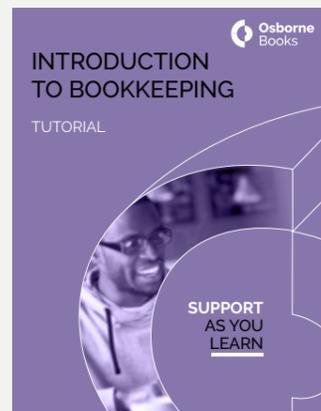

MDCL & MABU combined, plus a smattering of MMAC, a dash of linear programming, garnished with transfer pricing for good measure.

Internal Accounting Systems and Controls now incorporates the impact of technology on systems and organisations.

"HAVING BEEN AN FE COLLEGE LECTURER BEFORE HAVING THE OPPORTUNITY TO BECOME AN AUTHOR FOR OSBORNE BOOKS, I UNDERSTOOD THE IMPORTANCE OF HAVING LEARNING MATERIALS THAT ARE EASY TO UNDERSTAND WITH LOTS OF PRACTICE ACTIVITIES. THIS SUITE OF PUBLICATIONS REALLY WILL MAKE LIFE EASIER FOR STUDENTS AND LECTURERS!"

LEVEL 3 AND LEVEL 4 EPA WORKBOOKS

These comprehensive workbooks are specifically for assistant accountant and professional accounting technician apprentices completing their knowledge assessment (KNWA) or synoptic assessment for their end point assessment.

The Level 3 workbook includes 6 practice assessments, while the Level 4 workbook features 4 practice assessments, both thoughtfully written by experienced Osborne Book authors.

Each practice assessment is written with the style of the synoptic assessment in mind and contains detailed answers to aid in self-reflection and understanding ahead of their end point assessment.

The Level 4 book should be used in combination with Osborne Books' **Internal Accounting Systems and Controls Tutorial** and the **Q2022 AAT Level 4 Diploma in Professional Accounting Tutorials and Workbooks** for core units. The Level 3 book should be used in combination with the Osborne Books **Tutorial and Workbooks for the Q2022 AAT Level 3 Diploma in Accounting**. All of which contain explanatory text and practice questions.

Table of contents

- 4-6 practice assessments
- Answers to practice assessments

Key Features

- Designed for Level 3 and Level 4 apprentices
- Written by experienced Osborne Book authors
- Comprehensive integration with other Osborne Books titles

SPREADSHEETS FOR MANAGEMENT ACCOUNTING TUTORIAL

This study text for the AAT Level 3 Diploma in Accounting teaches the spreadsheet skills you need to pass the Q2022 Unit 'Management Accounting Techniques'.

You will learn the basic principles of using spreadsheets in accounting, along with more advanced formatting and data manipulation techniques. The book includes a large number of practical management accounting exercises to put your learning into practice.

This book should be used together with its companion: **Management Accounting Techniques Tutorial**. This is the main study text for the unit and will ensure you can apply the spreadsheet skills you have learned to situations in management accounting.

The book is based on Excel, part of the Microsoft Office 365 Suite.

Table of contents

- 1 Spreadsheet basics
- 2 Formatting the spreadsheet data
- 3 Advanced formatting
- 4 Spreadsheet functions
- 5 Sorting, checking and importing data
- 6 Statistical functions
- 7 Charts
- 8 Pivot tables and workbook management

Download your spreadsheet files from the Resources tab.

All Osborne Books study materials are written by our expert authors in an easy-to-read style, giving you the knowledge and confidence to pass your AAT exams.

They include:

- clear explanations
- practice exam-style questions
- case studies
- a FREE ebook
- more FREE study resources in the Osborne Books Student Zone

STUDENT ZONE ONLINE LEARNING

Our online study and revision area contains a range of free practice tests to support students. The questions cover a range of topics and are written in a variety of styles including multiple choice, drop-down options and interactive tables. This will help students to consolidate knowledge and become familiar with computer based assessments. Progress can be checked at various stages of each question by clicking on an 'Am I right?' button. Full solutions can be viewed at the end.

Our Student Zone is a password-protected area for students that provides a bank of free supplementary AAT resources, including:

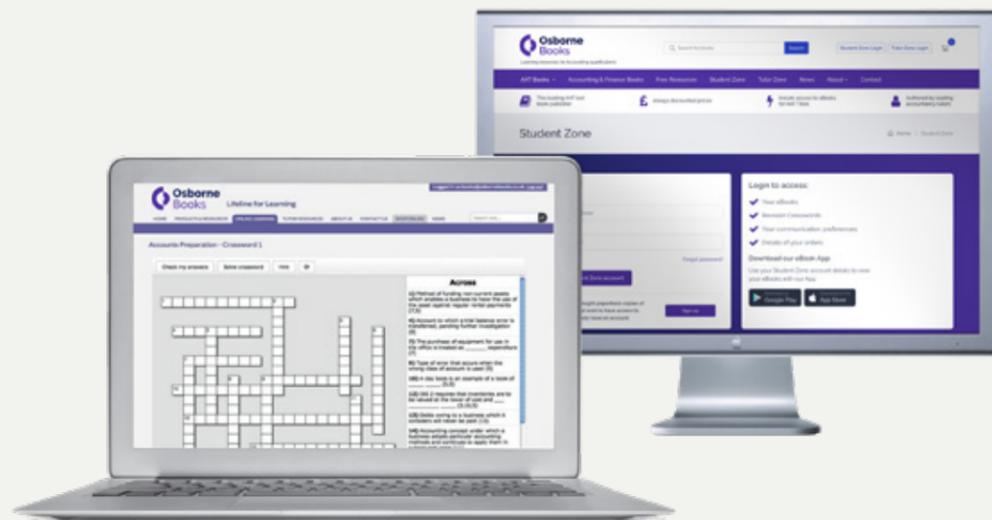

Interactive Revision Crosswords

fun revision tools that give your students extra opportunity to consolidate their learning.

Student Zone tests (New for Q2022)

Question and answer documents provide additional question practice on topics covered within the books
